## RELEVANT WORK EXPERIENCE

---

### ELVIAL SA

Web Developer of Digital Business Solutions & Innovation

**September 2024 – March 2025**

Kilkis, Greece

### Accenture Greece

Get trained get hired Academy - Cloud Infrastructure

**July 2024**

Thessaloniki, Greece

During the training we focused on the following thematic units:

- Azure PaaS Databases (SQL and CosmosDB)
- Azure IaaS Compute Infrastructures (VMs and Vnets)
- Azure governance and Microsoft Entra ID
- Azure App Service and functions
- Azure cost management and monitoring

Additionally, we were tasked to create and present a plan to migrate a company from an on-premise solution to a fully cloud based one.

### NATECH A.E.

Intern Software Developer

**October 2022 – December 2022**

Ioannina, Greece

During my studies I pursued an internship as a software engineer. During my internship we worked on developing application subsystems using C#, .NET and SQL server.

## EDUCATION

---

### University of Ioannina

**April 2024**

MSc in Computer Science and Engineering (University of Ioannina) - Grade 6.31

**MASTER'S THESIS - IMPROVED DESIGN AND CONSTRUCTION OF A 2-DOF HAPTIC MECHANISM**

---

This work is about the building process and the functionality of a haptic mechanism with 2 degrees of freedom. The purpose of this work is to better understand these mechanisms, through the building process of one, to enable users to perform basic functions through it.

The key points of the project are:

- a requirement analysis of the theoretical background
- evaluation of the equipment and hardware needs
- design of the 3d models needed to be printed for the assembly
- the construction and assembly of a functional prototype
- creating a piece of software in python to access the readings of the hardware to ensure the correct functionality of the assembly

## SKILLS

---

### Hard Skills:

- **Programming Languages:** Java, Python, C#, C, HTML, CSS, SQL, PL/SQL
- **Backend Frameworks:** Spring Boot, .NET, Oracle APEX
- **Cloud Platform:** Microsoft Azure (basic familiarity)
- **Version Control:** Git (GitHub)
- **Other:** Docker, Kubernetes, REST, Microsoft Office Suite, Android Studio, ROS2

### Soft Skills:

- Collaboration
- Teamwork
- Critical thinking • Problem solving
- Adaptability
- Fast learner

### Languages:

- Greek (native)
- English (B2)
